

FOR IMMEDIATE RELEASE:

I.T. XCHANGE OPENS CHICAGO, IL & DC OFFICES

Raleigh, NC, April 7, 2003 – I.T. Xchange LLC, a leading distributor of secondary market personal computer products announced today that it would open satellite sales offices in Chicago, IL and the District of Columbia, effective April 7, 2003.

The Chicago and DC offices will allow I.T. Xchange to better serve its current and prospective customer base in the Midwest and Central time zones through local coverage.

According to I.T. Xchange's President and C.E.O. Jeff McFarlane "The opening of our Chicago office will provide enhanced coverage for our customers in the Midwest. The addition of these seasoned industry veterans to the team at I.T. Xchange will be a real asset, providing immediate revenue growth. Our DC office will build awareness of I.T. Xchange and the IBM Options Continuation Program in the Government sector. With the strategic location of these offices, I.T. Xchange continues to broaden its domestic presence in the US, in key markets and where talented industry professionals can be found."

As a leading worldwide distributor specializing in the resale of personal computer hardware, I.T. Xchange will continue to provide customers with a high level of service and support while achieving solid revenue growth.

It is expected that IT Xchange's customers will continue to benefit from:

- I.T. Xchange's substantial inventory of new, constrained, discontinued, and refurbished computer products
- I.T. Xchange's extensive relationship with IBM, particularly the IBM Options Continuation Program: www.pc.ibm.com/ww/ocp

ABOUT I.T. XCHANGE

www.itxchange.com

I.T. Xchange is an international distributor of personal computer and server technology, with offices in Oakville Ontario; Raleigh, North Carolina; Clearwater, Florida; Wells, Maine, San Francisco, California, Greenock, Scotland and Barbados. I.T. Xchange works with a broad network of domestic and international clients, providing customers with name brand and cost-effective products. This allows organizations to maintain their standard platforms for extended periods of time (Platform Maintenance) or to acquire technology appropriately matched to their applications (Appropriate Technology).
